Claim Rejections - 35 USC § 112

Claim 41 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim is grammatically incorrect. It now reads "A method for the treatment of a disease state associated with smooth muscle disorders comprising diseases of the genitourinary or gastrointestinal tract, or a respiratory disorders is selected from the group consisting of allergies, asthma, chronic obstructive pulmonary disease and pulmonary fibrosis comprising administering to a patient in need thereof a therapeutically effective amount of a compound of claim 33."

The term "comprising" is open ended. It is unclear which other disease Applicants intend. The metes and bounds of the diseases embraced by this claim is not known.

Claims 33-38 and 45 are allowed.

Claims 42-44 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
